TOUGH AS ENDURO

COMFORT, BREATHABILITY AND DURABILITY IN A SINGLE PACKAGE

ToughAs have developed a combination of the latest innovative yarns and then coated with a highly breathable nitrile coating to create a glove which “breathes” easily, expelling warm air from within the glove to the outside of the glove, while at the same time wicking moisture away from the hand providing a truly dry and comfortable experience while hard at work. The ToughAs range of gloves are perfect for every day general use where comfort, fit and durability are important.

FEATURES

Excellent fit, dexterity and performance
Durable and breathable nitrile coating
Oeko-Tex 100, Sanitized and dermatologically accredited
sizes 8 to 11

LIC: BMP 757372

Why BSI Certification: By certifying with BSI, Safetymate demonstrates to users of our products, that they not only use industry-respected best practices but also choose to work with the organization that developed many of these standards. As a highly trusted global regulator, BSI tests products against industry recognised standards. In a world where safety is of paramount importance, BSI and its logo offer addition value and guarantees that products have been expertly tested to market-leading standards of quality, and safety and durability.

Should the glove display any signs of deterioration or contamination it should be removed and replaced .
